STATUS

These statements are presented together for ratification as part of the consent agenda.

PMOC Decisions and Dispositions

PMOC Decision A

The PMOC upheld the determination that the appeal did not present the constitutionally required grounds for broader judicial review. Council is asked to ratify the decision.

PMOC Decision B

The PMOC reviewed the appeal, the record of proceedings, and the Presbytery ruling; upheld the Presbytery ruling; and affirmed that the local session acted within the applicable ecclesiastical process. Council is asked to ratify the decision.

DELEGATE-ONLY MATERIAL

The identities of the appellant and other private individuals, together with the factual narrative, allegations, personal and pastoral details, evidentiary record, correspondence, and full PMOC response, are intentionally omitted from this public edition.

PMOC Disposition C

The PMOC concluded that the local church and presbytery followed their governing procedures, declined the requested relief, left the presbytery decision intact, and expressed prayer for future restoration. Council is asked to ratify the disposition.

These summaries identify the actions before Council without reproducing private disciplinary records.
